

3. Transcript 3: Rajesh Solanki (Betul / Ambada, 25 Yrs Exp, Hindi)

Context & Classroom Reality: Teaches Hindi; takes 6 periods/day. Manages APAAR ID mapping, registers, and student hygiene during lunch.

Pedagogical Challenge: High disparity between textbook grade levels and student actual learning levels (students in Grade 6/7 reading at Grade 2 level).

Digital & CLSS Feedback: Watches videos at home after 4:00 PM (2-3 hrs/week). Finds CLSS discussion on student behavior useful. Notes that feedback forms are skipped due to forgetting or perceived irrelevance.

4. Transcript 4: Bhagamlal Singh / Jawa (Satna, 19 Yrs Exp, Maths & Science)

Context & Administrative Burden: Teaches Maths & Science; takes 7 periods/day (40 min each). Non-academic duties (MDM, BLO, Census) consume 30-40% of time, leaving zero time for lesson prep.

Training & Digital Needs: Needs working projectors and TLM materials. Prefers short 30-minute videos split into 4 parts. Requests offline video downloads.

Staff Cascade Recommendation: Recommends a **One-Pager Summary** for staff rooms so non-attending teachers can quickly catch up on CLSS learnings.
